Note by the Secretariat

**1 SUMMARY**

This Annex 1 to the Liaison Note to ITU WP5B provides IALA input to the review of existing maritime systems and visions of future maritime communications technologies. Specific items address emerging digital communications, navigational technologies, hydrographic matters and vessel traffic management.

In order to meet the deadline of 11th November as the latest date for submission of documents to the next meeting on ITU-R WP5B from 18 – 29 November 2013, the Council approved this document by correspondence.
